2. Scope of Audit- During the course of audit for the year 2024-2025, it was noticed that certain vital and important records are not being maintained or partly maintained. In spite of several objections raised in the audit reports of previous years, the Executive Authorities did not evince any interest and not taken any effective steps to maintain the records mentioned here under. The non maintenance and non production of records and irregular maintenance of the registers without tallying with the account figure leads to all sorts of irregularities such as misappropriations, defalcations and other major financial losses. The situation has not been improved anymore and no steps appear to have been taken towards that direction by the present executive authority. In the above circumstances there is every possibility and scope for misappropriation, defalcations and irregular draws as the state of accounts maintenance and keeping the records is in quite pandemonium situation. Some irregularities are noted below.

1. Vouchers obtained from account section and distributed to concerned sections to produce the same to audit along with files records and stock registers, but they did not produce them. In this regard half margin letters also served to municipal authorities. (Objection raised in this report)

2. Time bared taxes and fees year wise balances not arrived (Objection raised in this report)

3. Property Tax & Water Tax collections made through Mee-seva and the Mee-seva authorities sending /crediting the amounts by deducting library cess, user

charges ect. But these amount were not exhibited in account of Municipal Council as expenditure.

4. Property tax collection were made with help of hand held machines, but a lumpsum amount arrived from the various spell of collections are being transferred to the Municipal accounts after deduction of user charges, due to which it is not possible to verify that the entire amount of collection has been transferred to the Municipal account, need to be streamline.

5. On verification of the annual account, it was noticed that the opening balance of cash book was cash on hand was Rs.635372/- The details of the same was not shown to the audit, due to this any chance to misappropriate in collection of amount.

6. procedure for maintenance of e-files for the permissions accorded though online such Building permissions, P.T. Assessments and Mutations etc have not been maintained in the office, due which correctness of all files could not be verified in Audit.

Action need to be taken on the above mentioned points for more effective and efficient working of the Municipality.
